

HP is a technology company that operates in more than 170 countries around the world. We explore how technology and services can help people and companies address their problems and challenges, and realize their possibilities, aspirations and dreams. We apply new thinking and ideas to create more simple, valuable and trusted experiences with technology, continuously improving the way our customers live and work.

#### [HP Critical Facilities Services — EYP MCF](#)

Widely recognized as a leading innovator in its field, EYP Mission Critical Facilities (EYP MCF) strengthens HP's ability to help you improve data center computing performance and availability, maximize data center energy efficiency and achieve cost-effective data center transformation. EYP MCF has worked with financial services, telecommunications, information technology, broadcast and healthcare enterprises around the world, as well as numerous federal, state and local government agencies.

Delivered by highly experienced EYP MCF professionals, [HP Critical Facilities Services](#) support a wide range of data center planning, design and operations requirements. Whether your goal is to create an entirely new facility or optimize an existing one, we can provide the specific service levels you need across every phase of your project's lifecycle.

EYP MCF professionals complement HP's extensive data center infrastructure services portfolio and advanced power and cooling solutions with proven expertise in strategic planning, design and operational continuity support for large-scale mission critical facilities.

The result: industry-leading Critical Facilities Services focused on desktop-to-data center optimization for driving better business outcomes.
