## SUB : INTRODUCTION OF OUR COMPANY

We are an engineering unit specializing in the line of manufacturing rolls for various industries. Mainly we have been doing job work for various esteemed companies in the paper and allied industries.

It has been our constant endeavor to improve on old off the shelf ready products as well as to add new line of products after getting feed back from various applications of the industry. These products have been added to our line of production after months of rigorous testing and on the machine analysis.

We have been supplying industrial rolls to industries not only all over India but also to Malaysia, Lebanon, Philippines, Pakistan, Bangladesh etc.

We also would take this opportunity to mention the various industries that we are serving Paper, Steel, Textile, Vinyl, Laminates, Packaging, Printing, Asbestos Sheet Manufacturers, Leather, Aluminum and Copper Foils, Coating Plants, Polyfilms, Aluminum Composite Panel, Flex Manufacturing and Printing companies etc.

We are not only doing job work but also manufacturing new rolls for our esteemed clients. We have manufactured rolls upto 7300mm face length and upto 1500mm dia of upto 110mm thickness. We can service rolls having weight upto 35 tons.

In 2004 MRL had added to it's product line specialized rolls for the Printing Industry and we are proud to have customers like Amar Ujala, Dainik Jagran, Hindustan Times, Dainik Bhaskar, Thomson Press (Printers of Readers Digest, Cosmopolitan etc.) Rajasthan Patrika etc.

This year a project bigger than the parent company has been taken up. Hard Chrome plating is a very specialized field of Surface Engineering and MRL has established one of the biggest processing centers for catering to the needs of HARD CHROME PLATING. We hope to service Industrial Rolls, Printing rolls, Moulds for the AUTOMOBILE INDUSTRY, food industry etc. we are sure our upto date modern technology shall give foreign companies run for their money.
